ONE **DECISION** CAN **CHANGE** EVERYTHING.

DECISION BREAK

THINK FAST. **ACT FASTER.** SURVIVE THE OUTCOME.

1. OBJECTIVE

Be the first player to reach or pass the Finish space.

Decision Break is a high-pressure hybrid party game combining knowledge, quick thinking, physical and skill-based challenges, head-to-head duels, risk-taking and strategic decisions.

Throughout the game, your decisions affect not only your own progress, but often the other players as well.

2. PLAYERS

Players
2-8

Recommended Age
14+

Playing Time
90 minutes

ADDITIONAL REQUIREMENTS

- At least two smartphones with internet access
- A timer or smartphone timer
- Pen and paper when required by a challenge

4. SETUP

- Place the Game Board in the centre of the table.
- Shuffle each deck separately and place it in its designated position.
- Each player chooses a pawn and places it on the Start space.
- Give each player **3 Dice Tokens**.
- Place the two Decision Dice within reach of all players.
- Make sure the Decision Break QR Platform is accessible.
- Keep a timer ready for timed challenges.

3. COMPONENTS

- 1 Game Board
- 8 Player Pawns
- Action Deck
- Quick Action Deck
- Duel Deck
- Situation Deck
- QR-powered Decision Break Platform
- 2 Decision Dice
- 1 Decision Dice Explanation Card
- Dice Tokens

DECISION DICE

Each Decision Die has the following six sides:

1 - 1 - 2 - 3 - 4 - 4

? START QUIZ / QUICK START

All players complete the **Start Quiz** using the Decision Break Platform.

Players may share smartphones if necessary. Screens must remain clearly visible to the other players while answering.

After everyone has completed the Start Quiz, each player moves the number of spaces indicated by their Quiz result.

The **youngest player then starts** the game.

Play continues clockwise.

DECISION BREAK

THINK FAST. ACT FASTER. SURVIVE THE OUTCOME.

5. CORE GAMEPLAY

Decision Break **does not use dice** for normal movement.

At the beginning of your turn, **resolve the space** your pawn currently occupies. Complete the challenge or follow the effect, **then apply the resulting movement**.

Play continues **clockwise**.

6. BOARD SPACES

Each space on the Game Board represents a **specific type of challenge or effect**.

ACTION

Draw the top card from the Action Deck and follow the instructions.

Action Cards contain a variety of challenges, including physical, skill-based, creative and knowledge-based tasks.

QUICK ACTION

The player to your left draws the top card from the Quick Action Deck and reads it aloud.

You have 15 seconds to complete the challenge.

The reader may not explain it, give hints, or assist you in any way.

DUEL

Draw the top card from the Duel Deck and resolve the Duel.

Choose one opponent. The challenged player must participate.

The same player may not be challenged twice in a row. (Exception: in a 2-player game.)

SITUATION

Draw the top card from the Situation Deck and follow its effect.

Situation Cards may affect you, another player, multiple players or the entire table.

Follow the instructions on the card exactly.

QUIZ

Scan the QR code on the Game Board and complete a Quiz on the Decision Break Platform.

Choose the mode:
1 Question, 3 Questions or 5 Questions.

CHECKPOINT

Scan the QR code and complete the Checkpoint Quiz on the Decision Break Platform.

Once you reach a Checkpoint, it becomes your **safe zone** and you **cannot be moved behind it**.

YOUR DECISION

You choose what happens next.

Choose one of the following:

- Action
- Quick Action
- Situation
- Duel
- Quiz

If you choose Quiz, select 1, 3 or 5 questions.

7. SUCCESS, FAILURE & REFUSAL

SUCCESS

Follow the reward or movement shown on the card or platform.

FAILURE

Follow the penalty stated on the card. If no penalty is stated, stay in place.

REFUSAL

Follow the refusal penalty stated on the card. If no refusal penalty is stated, move back **2 spaces**.

8. MOVEMENT & CHECKPOINT PROTECTION

Move your pawn the **exact number of spaces** indicated.

Multiple pawns may occupy the same space.

If another player moves your pawn, **resolve that movement** as instructed.

Once you reach a Checkpoint, you **cannot be moved behind it**.

If an effect would move you farther back, **stop on your most recently reached Checkpoint**.

Before reaching the first Checkpoint, **Start** acts as your minimum position.

All players and effects must follow the rules as written. **Cards always override general rules when stated.** If a rule is unclear, use the **Dispute Rule** on page 7.

9. DUEL

When a player lands on a Duel space, draw the top card from the Duel Deck and follow its instructions.

The active player chooses an opponent.

- The challenged player must participate.
- The same player may not be challenged twice in a row.
Exception: In a 2-player game, this restriction does not apply.
- If a Duel requires physical activity and either player is genuinely unable to perform it for health reasons, draw a new Duel Card.
- The result and movement are determined by the Duel Card or, for a QR Duel, by the QR Duel rules below.

10. QR DUEL

The Duel Deck contains **one QR Duel Card**.

When it is drawn, the two players compete against each other using the Decision Break Platform.

CHALLENGING PLAYER

- 1 Open Play Duel.
- 2 Enter your name.
- 3 Select Create Room.
- 4 A unique Room Code appears.
- 5 Share the Room Code with your opponent.

CHALLENGED PLAYER

- 1 Open Play Duel.
- 2 Enter your name.
- 3 Enter the Room Code.
- 4 Select Join Room.

VS

Once both players have joined, the Duel begins.

HOW THE QR DUEL WORKS

A QR Duel consists of **3 rounds**.

In each round, both players receive the same estimation question and have **10 seconds** to submit their answer.

The player whose answer is closest to the correct answer wins the round.

If both answers are equally close, the player who submitted their answer faster wins the round.

If neither player submits an answer within the time limit, neither player wins that round.

After all 3 rounds, the platform displays the final Duel result.

QR DUEL RESULTS

Result	Winner	Loser
3-0	Move forward 4 spaces	Move back 1 space
2-1 or 2-0	Move forward 3 spaces	Stay
1-0	Move forward 2 spaces	Stay
1-1 or 0-0	Stay	Stay

AFTER THE QR DUEL

- 1 Return the QR Duel Card to the Duel Deck.
- 2 Shuffle the Duel Deck.

Therefore, the QR Duel Card may appear multiple times during the same game.

EXCEPTION: If all other Duel Cards have already been used and are in the discard pile, the QR Duel Card remains in play and is no longer shuffled back into the deck.

11.

DECISION DICE & DICE TOKENS

DECISION DICE RESULTS

Each player starts the game with **3 Dice Tokens**.
Dice Tokens allow players to risk positive forward movement for the chance to move further.

WHEN CAN YOU USE A DICE TOKEN?

Whenever you earn positive forward movement from a card, Quiz, Duel or any other game effect, you may choose to replace that movement with a Decision Dice roll.

- 1
- Decide to take the risk **before** moving your pawn.
- 2
- Announce your decision.
- 3
- Spend **1 Dice Token**.
- 4
- Roll both Decision Dice and add their values together.
- 5
- Ignore the originally earned movement and apply the Dice result instead.

 **1 roll = 1 Dice Token.**

Once a Dice Token has been used, it is discarded and cannot be used again.

Each Decision Die has six sides:
1 - 1 - 2 - 3 - 4 - 4

DICE TOKENS

TOTAL	RESULT
1-3	 Move back 1 space
4	 Stay
5	 Move forward 2 spaces
6	 Move forward 3 spaces
7	 Move forward 4 spaces
8	 Move forward 5 spaces, then choose another player to move back 1 space

Decision Dice may only replace **positive forward movement**.
They **cannot** be used to avoid or replace **negative effects**.

12.

CARD DECKS

There are four types of card decks in the game.

ACTION DECK

Draw the top card and follow its instructions.

Action Cards may contain physical, skill-based, creative, knowledge-based or other challenges and effects.

QUICK ACTION DECK

The player to your left draws the top card and reads it aloud.

You have **15 seconds** to complete the challenge.
The reader **may not** explain, give hints or assist you in any way.

DUEL DECK

Used for direct competition between two players.

The active player chooses an opponent. The challenged player must participate.
The deck also contains the QR Duel Card.

SITUATION DECK

Situation Cards may affect one player, multiple players or the entire table.

Some create temporary effects that remain active for a specified period.
Always follow the exact instructions written on the card.

13. START QUIZ

Before the game begins, all players complete the Start Quiz on the Decision Break Platform.

- All players answer the same questions.
- Players may share smartphones if necessary.
- Screens must remain clearly visible to the other players while answering.
- Each player moves forward the number of spaces shown by their result.

★ The youngest player then starts the game.

14. QUIZ SPACES

There are three Quiz spaces on the Game Board:

When a player lands on a Quiz space, they complete the corresponding Quiz on the Decision Break Platform.

! The Quiz space determines the number of questions.

➤ If a player passes over a Quiz space without landing on it, the Quiz is not completed. The player simply continues their movement.

15. CHECKPOINT SPACES

There are Checkpoint spaces on the Game Board. If a player finishes their movement exactly on a Checkpoint, they complete the Checkpoint Quiz on the Decision Break Platform.

CHECKPOINT = SAFE ZONE

Once you have reached or passed a Checkpoint, you cannot be moved behind it later in the game by any penalty or negative effect.

➤ If a later card, penalty or other effect would move you behind your most recently reached Checkpoint, you stop on that Checkpoint instead.

16. YOUR DECISION

When a player lands on a Your Decision space, they choose which type of challenge to resolve:

ACTION

QUICK ACTION

SITUATION

DUEL

QUIZ

If Quiz is chosen, the player also chooses:

1 QUESTION • 3 QUESTIONS • 5 QUESTIONS

➤ Then follow the instructions of the selected challenge.

17. CHECKPOINT PROTECTION

You cannot be moved behind your most recently reached Checkpoint.

EXAMPLES

A PASSING OVER A CHECKPOINT

You are 2 spaces before the Checkpoint and move 3 spaces forward.

You pass over the Checkpoint and land on space 31. You do NOT complete the Checkpoint Quiz.

The Checkpoint still protects you from now on. You cannot be moved behind it.

B LANDING ON A CHECKPOINT

You are 2 spaces before the Checkpoint and move 2 spaces forward.

You land exactly on the Checkpoint. You complete the Checkpoint Quiz and move according to the result.

PENALTY EXAMPLE

You are 3 spaces past your most recently reached Checkpoint.

SITUATION CARD

Move back 5 spaces.

You would move back 5 spaces, but Checkpoint Protection stops you.

STOP AT THE CHECKPOINT.

18. MOVEMENT DURING ANOTHER PLAYER'S TURN

If another player's card, Duel result or other game effect moves your pawn, **move it immediately**.

Do not resolve the space you land on immediately.

Resolve that space at the beginning of **your next turn**.

Another player moves you.

Do not resolve this space now.

Resolve this space at the beginning of your next turn.

19. MULTIPLE PLAYERS

Any number of players may occupy the **same space**.

There is no additional effect unless a card or game rule specifically states otherwise.

20. DELAYED & CONFLICTING EFFECTS

DELAYED EFFECTS

Some cards remain active beyond the current turn.

Keep these cards visible next to the affected player until their effect ends, then place them in the appropriate discard pile.

CONFLICTING EFFECTS

If a card specifically contradicts a general rule in this rulebook,

FOLLOW THE CARD.

21. RESOLVING DISPUTES

If players disagree about whether a challenge was completed successfully,

the players who were not directly involved decide by **simple majority**.

Their decision is final.

If no agreement can be reached, draw a new card from the same deck and complete the new challenge instead.

22. TECHNICAL ISSUES

If the Decision Break Platform or internet connection is temporarily unavailable:

QR DUEL

Draw a new Duel Card.

QUIZ

Draw a Quick Action Card.

START / CHECKPOINT QUIZ

Draw an Action Card.

After resolving the replacement challenge, continue the game normally.

23. WINNING THE GAME

The first player to reach or pass the Finish space **wins the game immediately**.

No additional challenge is required.
